El ITESM tiene como parte fundamental de su misión la formación de profesionales con altos niveles de excelencia en el campo de su especialidad. Es meta prioritaria de la Dirección de Informática contribuir con el Instituto en el logro de la misma.

Para lograr esto, hemos puesto a disposición de la comunidad académica del ITESM una gran variedad de servicios y herramientas computacionales que permiten al alumno hacer frente a los retos profesionales del mañana.

Sin embargo, estamos conscientes de que el desarrollo intelectual por sí solo no es suficiente, por lo que existe la necesidad de preparar en forma integral a nuestros profesionistas como miembros, no sólo de la comunidad de México, sino de una "cultura mundial".

Con este objetivo, la Dirección de Informática, a través de Biblioteca-Centro de Información, está trabajando en cultivar el acervo cultural del Instituto.

En apoyo a lo anterior, se ha establecido el servicio conocido como **Los Museos del Mundo**, que pone a disposición del usuario las obras de arte más destacadas a través de los tiempos y a nivel mundial.

El alumno podrá "visitar" los más famosos museos del mundo sin necesidad de viajar y sólo por medio del uso de una microcomputadora, un lector de videodiscos y un monitor a color.

Una vez más, la Dirección de Informática contribuye con el Instituto en la formación integral de profesionales con altos niveles de excelencia.

Desde su fundación, el área de Informática se ha desarrollado en respuesta a los cambios del medio ambiente tecnológico y de las necesidades de la comunidad académica del Instituto. Para lograr esto, siempre nos hemos preocupado por incorporar lo más avanzado y moderno en equipo y tecnología computacional de vanguardia que complemente los programas académicos del Instituto.

Ahora en 1991, sin perder de vista esta trayectoria, estamos convencidos de la necesidad de una nueva estructura organizacional, que no sólo sirva para continuar con

nuestra misión, sino que posibilite el logro de mayores niveles de excelencia en el desempeño.

Informática ha reestructurado sus 6 departamentos que pone a disposición de todos sus usuarios: Departamento de Servicios Computacionales, Departamento de Servicios de Información, Departamento de Telecomunicaciones y Redes, Departamento de Tecnología Computacional y de Información, Departamento de Computación Básica y Biblioteca-Centro de Información.

En Informática estamos para servirle.
